EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Daniel Kriegsman on 6/22/07.

The application has been amended as follows:

Claims 1-2, 7-8, 29-30 are hereby cancelled.

2. In the election filed 11/20/2006, claims 5, 9-11, 16, 18, 19, and 21-28 were withdrawn from consideration by the examiner as being drawn to a non-elected species of the invention. However, since claims 5, 16, 18, 21-24, and 28 depend from allowed claims, these claims are also passed to issue. The restriction requirement among species 1-10, as set forth in the Office action mailed on 10/3/2006, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claim 9-11 and 25-27, directed to other species are also cancelled because they do not all require all the limitations of an allowable generic linking claim as required by 37 CFR 1.141.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present

application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

REASONS FOR ALLOWANCE

3 Claims 3-6, 14-18, 20-24, 28, and 31 are allowed.

4. The following is an examiner's statement of reasons for allowance: Regarding claim 3, applicant has overcome the prior art by more clearly describing an intermediary portion of a shunt conductor to be non-linear along the entirety of its length, because the more annular shape eliminates sharp bends that can deform or break the shorting stub as a result of high current transients. Regarding claim 14, applicant has overcome the prior art by further limiting the insulator pairs, specifically *a second dielectric material disposed between the first pair of insulators and at least one of the inner conductor and the outer conductor.*

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Neil Prasad whose telephone number is 571-270-1430. The examiner can normally be reached on M-F 7:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Zandra Smith can be reached on 571-272-2429. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
